

Claim R&D Tax Credits In:

Engineering

**COUNTING
KING**

Our Simple 4 step process for Claiming R&D Tax Credits

-  **Step 1 Discovery Meeting:** We will always conduct a discovery meeting to talk you through the incentive, explain our process, and establish whether your company carried out eligible research and development activity.
-  **Step 2 Site Visit:** During the second stage, we will visit your site and conduct informal interviews with key personnel to gain a deeper understand of the business for the technical report. We will also ask for your up-to-date financial data for our in-house analysis.
-  **Step 3 Benefit Analysis:** We will conduct our research and development benefit analysis, where we assess all eligible costs and calculate your maximum benefit.
-  **Step 4 Submission:** We will submit your claim to HMRC within 2 weeks of securing all completed documents. HMRC will process your payable credit claim and pay out the benefit within 28 days. In the case of HMRC requiring additional information, Counting King will oversee this process.

Why choose Counting King?

We will get you the maximum compliant R&D Tax Credits benefit for your company
